

Microsoft **Dynamics AX** is the Microsoft **Enterprise Resource Planning** (ERP) solution for enterprises that empowers people to anticipate and embrace change so the business can thrive. By combining comprehensive ERP with purpose-built industry capabilities, this single powerful solution delivers value across the business quickly, the agility to maximize opportunities in a changing market, and the simplicity to drive innovation—today and tomorrow.

Microsoft Dynamics is a line of integrated, adaptable business management solutions that enables businesses and their employees to make business decisions with greater confidence. Microsoft Dynamics works like and with familiar Microsoft software such as Microsoft Office and with top technologies like Microsoft Windows Server System and Microsoft .NET.

This course is designed with Microsoft Official Curriculum (MOC) covering all the practical aspects of the subject. Topic-wise practical applicative approach to the subject with case studies is provided. Course includes a real time sample Project as well. Duration of the course is for **100+** hours.
